Scotland's renewables market is predicted to grow from £63 million in 2004 to over £350 million by 2015.

The Scottish Executive has set a target of 18% of electricity generation to come from the renewables by 2010, rising to 40% by 2020.

17,000 - 35,000 jobs are expected to be sustained in the UK market by 2020
